If a child has been working on a higher level list, e.g. in the previous year they were on list 4, then the testing should start at list 4. Throughout the year teachers re-assess as needed. Spelling programmes to commence for students who are working above Level 6 in reading. All children must have been tested at least once in term 1 by week 5 and again re-tested by term 3 week 5. Data entered into eTap for the list the child is currently achieving at only.</td>

Data Analysis

In this section think about the following questions (you do not need to repeat the quantitative data above).

- What is the data above telling you in terms of reading *achievement* in your team?

Overall as a team 80% are achieving at or above. Girls are achieving highly while boys have a large group below. Maori students are not achieving well with 50% below.

Of the 9 Maori and Pasifika students, 4 are achieving at or above standard while 5 are below. For the 5 students achieving below 1 student is on an IEP, 2 of these students are on the ALL literacy program to accelerate their learning, 2 of these students attended the workshop for reluctant writers during book week.

- What is the assessment data (i.e. e-asTTle, in class writing assessments, writing across the curriculum, student voice) telling you about progress in your class?
- According to your assessment data, what percentage of your team are making acceptable progress?
- According to your assessment data, what percentage of your team are not making acceptable progress?
- According to your assessment data, what percentage of your team have made accelerated progress?

As a team we felt that students under achieved on the mid year asTTle test. This was an untaught genre which could have affected the overall scores. We don’t feel that this is an overall reflection of their writing ability. In year 5, 55% of students have made acceptable progress and 45% have made unacceptable progress on this test.

In year 6, 81% of students have made acceptable progress and 20% have not made acceptable progress on this test. 49% of year 6’s have made accelerated progress, several of whom are our target students.

Some students still find the asTTle style test difficult as they have a much shorter time and pressure to complete all steps of the writing process within this time. As a team we have discussed the need to have more in class timed writing sessions which follow

**Knowledge and skills include:**

**Ideas/Sentences/Punctuation**
- Writes all upper and lower case letters correctly and with speed
- Writes all numbers correctly
- Composes mainly simple and compound sentences, with some variation in their beginnings
- Uses simple conjunctions correctly, with subject–verb agreement and noun–pronoun agreement
- Uses full stops, question marks, or exclamation marks to end sentences and using capital letters correctly to begin sentences (and for familiar proper nouns)
- Develops content that is related to the curriculum topic, with some (mostly relevant) detail

**Spelling/Vocabulary**
- Draws on knowledge and skills that include; using their personal content vocabulary of written words as well as words and phrases that are part of their expanding oral vocabulary

Assessment capable students

What are the key characteristics of assessment capable students?

Students who can:

- Co-construct learning with the teacher
- Students who understand the learning intentions of lessons
- Students who are active participants in learning
Assessment capable students

Students who can:

- self assess accurately and successfully against the success criteria and know their next steps in learning.

### Focussing the learning - Teacher analysis of children’s needs in writing

What is the data telling me my students can do and now need to learn?

**Sentences R3 TO R4/5** - Overall this group needs to learn how to use a range of sentence types and lengths to make their writing interesting. They often have repetitive sentence beginnings so need to learn different ways to structure a sentence to help with this. Look at adding detail into a sentence e.g.; adding who, what, when, where and how. Student voice has also suggested that the group would like to work on sentences and organisation.

**Kris** has got the ideas but needs to formulate them more effectively.

**Jaymeson** tends to list his ideas, instead of expanding on each one.

**Jack** has some good ideas but tends to be quite disjointed within his writing.

**Ethan G** needs to follow through with his ideas & to think about new ideas to add a certain amount of complexity. (can lose focus in a lesson if not monitored)

**Josh** has got the ideas but needs to formulate them more effectively (has more simple ideas)

**Georgia** needs to follow through with her ideas & add more details to them.

**Jonty** Tries to elaborate on his ideas, but they are still simple and short.

**Sarah** needs to elaborate on her ideas to create more depth & context.

- Acting on feedback
- Feedback to the teacher
Peer assessment

1. Pick a buddy
2. Read the success criteria for the task
3. Write feedback in their book or google doc and discuss it with them

Here are some sentence starters to help you when you are buddy-checking work:

Feedback - Look for things they have done well
- This work meets the criteria because...
- The biggest strength of this work is...
- You have thought of a good way of doing...
- I like the way you...
- Well done you have....

Feed forward – Look for things they could improve on by going back to the success criteria
- You might like to...
- Next time you might like to do...
- You could take another look at...
- I suggest that....
- It would be even better if....
- I think you could improve on....

Alana, I like your piece of writing. You have added lots of ideas that draw in the reader to keep on reading. You added lots of complex punctuation throughout your writing, and most of it was in the correct places. I did find a few mistakes, (like capital letters and spaces in-between words. I think its a good idea to read over your writing a few times. In summary I think this is a great, attention-seeking piece of writing to read.

The ghost of Farmer Jack

In front of me and my ally is a dark, misty forest. As we walk closer, I hear the wind yelping for help; "heep..." "Heeee..." We ignore it and head into the dark, misty forest.

As we go deeper into the forest it gets darker and darker and quiet...

Fido's adventure #1

"Fido"... "Fido, there you are, come here boy! My owner says as he finds me sleeping in my kennel. "There you, go hows mummy's little baby doing". I signal Maria that my collar is furiously itchy, but alas she does not listen. She hands me my food bowl, Doggie puffs my favourite. I look out the window as I munch into my cereal, meanwhile Maria pops some bread in the toaster. "Old jeffy road, just can't beat it eh Bob? I say as I gaze into the sunrise. "Eh it's alright but what really matters is this cheese and how I can get it out of this mouse trap!"

My itchy collar is causing SOOO much pain I think I might have to go to the vet! I signal my owner one more time; rrrruff ruff, I bark as my owner is eating her toast, meanwhile (of course) Bob just got into our fridge. "Is this what's bothering you"? "Ow boy that must hurt." My owner takes my collar off strenthily. "Go outside to play boy". I take flight into my doggy door and zoom into the front yard. "There's noting better then playing out in the beautiful front yard and playing on the slide, what do ya think Bob"? "I'd rather eat my fresh cheese pretzels". "Suit yourself". I think to myself cautiously, is that was I think it is? I shout to Bob; "A

Thinking about learning...

Celebrating what you’ve learnt:
1. What new learning can you celebrate?
2. What did you learn today and why?
3. What did you enjoy today and why?

Thinking about what you learnt:
4. What helped you learn today? (the activity, teacher, buddy, group work?)
5. What really made you think while you were learning?
6. How would you change the lesson today?

Tricky learning:
7. What did you find tricky and why?
8. What did you do when you found the learning tricky?
9. What do you need more help with?
10. What are your next steps and how do you know this?

Using your learning:
11. How does this relate to what you already know?
12. How can you use your new learning?
13. How could you use your learning in other subjects?
14. How could you use your learning to help you or others later in your life?

Writing reflection

Do you know where you are going with your learning in writing?
Are you clear about the areas you need to work on and your goals? Do you know what your success criteria is and where to find it?

Do you know how you are going in writing?
Are you progressing well? Do you get enough feedback about how you are going? Are you on track to meet your goals? Do you know your assessment results? Do you know what level you should be at?

Do you know where to next in writing?
What are your next learning steps? What do you need to do to improve?
